Please join LIYC Commodore Carter Ford on The Star Flyer as we sail a new course to the shores of Spain and the shoulder of Africa on an exotic adventure from Malaga. The climate cools ever so perfectly this time of year in the Costa Del Sol, making that afternoon stroll through the streets of orange-scented Seville all the more delightful. Discover what makes Morocco so enchanting. Explore the cities that are at the crossroads of Africa and Europe, feel the presence of Bogart and Bergman. Get lost in the sweet smell of spices that linger in the air while bargaining for a new bauble at a colorful souk.

If you have any questions, please call Dave or Pat Lamb or Nancy Levy.
